## 3. IBM Watson Studio and Watson Machine Learning has been Created:

Welcome, Karthikeyan!

**Take a tutorial**  
Step through implementing a Data fabric use case in a sample project.

**Work with data**  
Create a project for your team to prepare data, find insights, or build models.

**Learn what's new**  
Stay current with new features, enhancements, and other changes.

**Quick start**

- Create data pipelines with DataStage
- Build customer profiles with IBM Match 360 with Watson
- Catalog and govern data with Watson Knowledge Catalog
- Build and manage ML models with Watson Studio
- Query data anywhere with Watson Query

**What's new**

Manage settings for data protection rules (Watson Knowledge Catalog)

**Projects**

- vehicle performance analysis-deployment Today at 12:18 PM

**New in gallery**

**NOTEBOOK**

Use AutoAI and Lale to predict credit risk with...

Learn how to use AutoAI experiments in this notebook by getting a German credit data set and train the model to predict banking credit. Then, compare several trained models for quality and select best one for further ref.

**Notifications**

- Online deployment ready**  
The online deployment newdeployment in space models is ready to accept requests  
Today at 12:50 PM
- Online deployment ready**  
The online deployment newdeployment in space models is ready to accept requests  
Today at 12:50 PM

**Deployments**

No deployment spaces  
After you create spaces, you'll see them here.
